The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-10 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3's "comprising consisting of" is improper. Is the claim a "comprising" or "consisting of" claim? Later "consisting essentially of" and "comprising" is used. Only a single transitional phrase should be used.

Claim 3's "there bend" is not understood.

Claims 4 and 6 improperly mix "comprising" and "consisting essentially of" transitional phrases.

Claim 8 cannot be a "comprising" claim and depend on "consisting essentially of" claims.

Claims 1 and 2 are allowable. WO 99/63002 exemplifies blends polycarbonate with PCCD and suggests inclusion of polycyclohexane dimethanol terephthalate (page 21 line 5). However, this suggested polymer lacks the additional aliphatic or aromatic diacid or diol required by claim 1 (typically ethylene glycol or isophthalic acid). These additional units improve clarity (see applicant's tables). Small '967 and Light '355 exemplify blends of two polyesters with polycarbonate, but neither polyester is based on cycloaliphatic diacid.
